

Ebola in west Africa: the role of the Institut Pasteur and the Institut Pasteur International Network

Amphitheatre Duclaux, 10 January 14:00-19:00

Agenda

Time	Title	Speaker
14:00-14:10	<i>Welcome</i>	Felix Rey, Kathleen Victoir
14:10-14:20	<i>Institut Pasteur Ebola Task Force</i>	Felix Rey, Pierre Legrain
14:20-14:40	<i>The 2013-2016 Ebola Outbreak in West Africa</i>	Maria Van Kerkhove
14:40-15:00	<i>Ebola outbreak in West Africa: from initial diagnosis to field laboratory and clinical research</i>	Sylvain Baize
15:00-15:20	<i>Laboratory training as response to the Ebola outbreak</i>	Kathleen Victoir
15:20-15:40	<i>Post-Ebola and IP Guinea</i>	Noel Tordo
15:40-16:10	<i>Coffee Break</i>	
16:10-16:30	<i>Ebola virus: from diagnostic tools development to virus survival studies</i>	Jean-Claude Manuguerra
16:30-16:50	<i>Genomic epidemiology and functional studies of Ebola virus</i>	Etienne Simon-Loriere
16:50-17:10	<i>Medical anthropology and biomedical research in the Ebola epidemic: Past and upcoming research</i>	Tamara Giles-Vernick
17:10-17:20	<i>Towards comparative interactomics of filoviruses</i>	Yves Jacob
17:20-17:40	<i>Reinforcement of the host defense against EBOV by disrupting the association of VP35 with PACT and PKR</i>	Milagros Collados-Rodriguez
17:40-18:00	<i>Stabilising the human Ebola Virus cellular receptor for in vitro studies</i>	Nico Reyes
18:00-18:20	<i>Collaborative Cross mice show variable susceptibility to Ebola virus and provide valuable models for research</i>	Xavier Montagutelli
18:20-18:40	<i>RNA-based Diagnostic on paper for Ebola Virus detection</i>	Pierre Lafaye
18:40	<i>Questions and Close</i>	Kathleen Victoir, Felix Rey
