

SEMINAR

# Inception

(G5) Young Group Leader Candidates (2018)

MAY 3, 2018

Institut Pasteur, Paris, François Jacob Auditorium

## PROGRAM

9.20am Welcome Coffee

9.40am **Sara Ballouz** - Cold Spring Harbor Laboratory, Genomics, New York City  
*Solving for X: gene co-expression networks for X-linked disease analysis*

**Florence Cavalli** - The Hospital for Sick Children, Arthur & Sonia Labatt  
Brain Tumour Research Centre, Toronto  
*Integrated genomic analysis deciphers clinically relevant tumor heterogeneity*

**Rayan Chikhi** - CNRS, University of Lille / CRIStAL, Lille  
*Sequence bioinformatics and applications to metagenome assembly*

11.00am Coffee Break

11.25am **Marco Galardini** - EMBL-EBI Wellcome Genome Campus, Cambridge  
*Genotype-to-phenotype models in an *Escherichia coli* strain collection*

**Edoardo Pasolli** - University of Trento Centre for Integrative Biology, Trento  
*Unravelling the human microbiome with shotgun metagenomics: new tools and biomedical insights*

**Marc Vaudel** - KG Jebsen Center for Diabetes Research, Department of Clinical Sciences University of Bergen, Center for Medical Genetics and Molecular Medicine Haukeland University Hospital, Bergen  
*A systemic proteogenomics bioinformatics environment to enhance our understanding of the effects of genetic variation and improve patient care*

12.45pm Buffet Lunch
